Highly versatile and adaptable professional, adept at tackling challenges head-on with a problem-solving mindset. Eager to embrace continuous learning opportunities and deliver user-centric solutions. Possessing a strong focus on clear communication, I am committed to making a positive impact through my problem-solving abilities. Seeking a role that fosters growth and allows me to utilize my skills effectively in a dynamic and innovative environment.

## WORK EXPERIENCE

**Google club** (February 01, 2019 - July 20, 2021)  
Designer  
I designed a diverse range of flyers and posts for numerous events hosted by prominent professional clubs within the university. These projects required a keen eye for detail and a creative approach to effectively communicate the essence of each event.

**Microsoft Club** (October 20, 2022 - Present)  
Lead Designer  
As the Lead Designer at Microsoft Club, I spearheaded the development of captivating and innovative visual solutions for a wide array of club events. My role involved conceptualizing and executing designs that resonated with the club's brand identity, effectively communicating the essence of each event.

## AWARDS

**IDEATHON** (February 20, 2020)  
Google Club  
During a 24-hour ideathon, I collaborated with my team to craft a winning solution in the competition. As a key contributor, I took charge of designing an innovative medical app that stood out and secured the prize. I conceptualized an intuitive and user-friendly interface that addressed specific healthcare challenges effectively.

**ForeverMoon** (June 15, 2021 - August 15, 2021)  
front-end developer intern  
As a Front-End Developer Intern at Forevermoon, I contributed to the company's web development projects, showcasing my proficiency in HTML, CSS, and JavaScript + having hands on nextjs framework . Collaborating closely with the development team, I actively participated in designing and implementing user-friendly interfaces, ensuring optimal user experience.
